

IN THE SPECIFICATION

Please insert the attached Sequence Listing into the above-identified patent application.

REMARKS

Applicants confirm that claims 28-60 are the claims that Applicants currently wish to be examined. Claims 1-27 were cancelled and claims 28-60 were added to resolve confusion over which claims were pending in this application.

Pursuant to the requirements of 37 C.F.R. §§ 1.821-1.825, Applicants submit the enclosed Sequence Listing and computer readable form (CRF). The amino acid sequences disclosed in the specification, claims, abstract, and drawings may be found in computer readable form in file 991768.TXT on the enclosed diskette and are presented in the paper copy of the Sequence Listing, also enclosed.

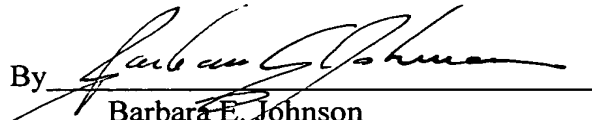

Applicants hereby certify that the information recorded in computer readable form (CFR) supplied on the enclosed diskette as file 991768.TXT is identical to the written Sequence Listing. The material presented in computer readable form is not new matter because it presents sequences the same as those disclosed in the specification, as filed.

The required copy of the "Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures" with an accompanying copy of the CRF Problem Report are also enclosed.

Applicants believe that the requirements of 37 C.F.R. §§ 1.821-1.825 have been met.

Respectfully submitted,
